

INSURANCE

INSURANCE OFFERINGS

Coforge

The insurance industry has been plagued by challenges of legacy systems, outdated processes, lack of innovation, and stringent regulatory requirements. With the entry of tech-savvy InsurTech companies, traditional insurers must up their digitization process.

At Coforge, we understand the complexities and unpredictability of Property & Casualty deals and the challenges to automate the processes. With years of experience, we've enabled our clients to optimize their processes with RPA, AI//ML, NLP, and workflow automation – delivering the best digital experience and business value.

Our Offerings include:

Core Transformation

Core platform transformation & consolidation changes

Core Platform Transformation and Consolidation has surfaced as a top priority for many Property & Casualty carriers.

Coforge's experience in Core Platform Modernization and Transformation is an integrated and industry-focused framework and set of services that deliver business outcomes while optimizing costs and providing the latest functions to the business. Including:

- Consolidation Strategy, Assessment & Roadmap
- Core System Implementation Services
- Core Systems –Transform & Modernization Services
- Duck Creek Platform Upgrade Services
- Quality Beyond QA Services
- Decommissioning

Digital Experience

Core platform transformation & consolidation changes

- Over 50% of insurers are planning on replacing or enhancing their portal capabilities. Where are you in the race to achieving digital efficiency?
- Portal technologies enable digital distribution & collaboration with Agent Portals, Broker Portals, and Underwriter Workbench. Coforge's Insurance Digital Portal services help Insurers achieve the goal of ease of distribution and increasing underwriter efficiency while providing intuitive experiences based on the different user personas and their journeys.

Next-Gen Application Support

70% of global insurance businesses still run on legacy applications, especially mainframe applications. Are you among the organizations dealing with operational inefficiency and high IT costs?

Coforge's mantra of "Intersect with Emerging" paves the way for an innovative solution for application support and maintenance.

We call it - NextGen ASM.

- Ready-to-deploy repository of smart and cost-effective accelerators to reduce cost.
- Latest RPA and AI-based solutions to accelerate your cost optimization efforts.
- Optimize knowledge resource and expertise allocation.
- Reshape IT budgets

Legacy Relief

Legacy relief for Property & Casualty carriers

Every insurance organization's legacy system pose unique modernization challenges. To ensure smooth transformation journey, Coforge's Legacy Relief services offer:

- Innovation programs for insurers of all sizes.
- A Consolidated Strategy for the transformation journey.
- Support and engagement at each stage of transformation lifecycle.
- Help build a customer-focused future-ready insurance landscape.

ONE Insurance

One-insurance: Bringing it all together

- Whether it is to gain a competitive advantage or to enter a new market, Mergers and Acquisitions (M&A) are a strategic growth avenue for any insurance carrier. An inevitable consequence of this inorganic growth is a disproportionate increase in the number of core insurance systems, data, and applications.
- Coforge's One Insurance Offerings is the Swiss army knife for insurance carriers in navigating the integration challenges of an aggressive M&A strategy or working seamlessly with a complex web of vendors and services. Be it our seasoned enterprise architects who will help you pick the best integration patterns based on your specific circumstances or our cadre of system professionals with deep expertise covering the full spectrum of market-leading insurance platforms to niche vendor offerings, Coforge's services will provide you with the crucial edge over your competition.

QE in-a-box

Moving from QA to QE

Customers' expectations in today's world is not just Quality Assurance, but Quality Engineering which is building quality from the foundation itself.

As an IT services organization provides a complete solution to Quality Engineering across the Insurance Industry sub-domains & platforms. Adopting shift-left practices, Coforge delivers QA-in-a-Box – a complete Quality insurance solution. Right from inception of the program to product support, QA-In-A Box Services provides:

- Reduction of Cost of Quality to the customer
- Testing New Product Rollouts and Revisions across all platforms
- Integrating quality into systems from the inception stage
- Digital Testing services in the areas of UX, Cloud, Mobile, API, Micro services, Data & Analytics
- Testing of Commercial off-the Shelf (COTS) Insurance platforms such as Duck Creek, Wynsure, and other market dominant L&A platforms

Journey to Cloud

In a world, where technology is becoming an enabler for business growth, Cloud is truly transforming the way carriers can take advantage of as-a-service models to innovate. Cloud, combined with Coforge's digital portfolio of capabilities, can serve the full spectrum of your business and delivery channels.

Coforge's Journey to Cloud is an integrated, industry-focused, application and infrastructure enabled set of services that helps Insurers move their businesses swiftly and safely to the cloud. Our solutions integrate at every stage of the 360-customer lifecycle and accelerate your cloud transformation through robust industry frameworks and proven methodologies across public, private and hybrid cloud solutions. We provide:

- Cloud Strategy, Assessment & Roadmap Services
- Core Systems –Transform & Modernization Services
- Cloud Transformation & Migration Services
- Cloud Management & Optimization Services

Compliance & Security

The increased focus on embracing newer client interaction models through digital channels and being nimble to adopt new business models means that strong cybersecurity compliance and discipline is now important more than ever!

Coforge helps businesses prepare, protect, detect, respond and recover along all points of the security lifecycle – creating a holistic secure footprint for an ever-evolving digital economy. Our clients benefit from:

- Integrated compliance and security solutions
- Cohesive security environment
- Ready-to-install processes for quick
- Real-time preventive and detective response capabilities

Coforge is a leading global IT solutions and services organization which believes that real transformation cannot be driven by thinking in technology terms alone. With a mission to “Transform at the Intersect” it aims to bring both deep domain and deep emerging technologies expertise to achieve real-world business impact. A focus on very select industries, a detailed understanding of the underlying processes of those industries and partnerships with leading platforms provides us a distinct vantage. We leverage AI, Cloud and Insight driven technologies, allied with our industry expertise, to transform client businesses into intelligent, high growth enterprises.
